

To whom it may concern:

On average, a United States worker loses 115 productive hours every year due to health conditions. The flu virus is one of the major contributions to disruption of daily life, lost productivity, and work absenteeism. This year could potentially be worse with the possibility of a Swine Flu epidemic.

Foundation Care Pharmacy, located in Earth City, can assist your company in providing a successful flu immunization program for your staff. We will provide everything you need to make sure your vaccination program is a success including:

Professional Staff

Our specially trained pharmacists and nurses will come to your worksite, so there is no need to send employees to inconvenient hospitals or clinics.

Effective Promotion

Foundation Care Pharmacy will provide you with all the materials you need to plan and promote the event. Marketing materials such as flyers, sample email messages, sample memos from your key staff, company newsletter, articles, and other flu-related information will be provided. If you need anything else, just ask!

Program Continuity

Employees who cannot attend a scheduled on-site corporate flu clinic still have the opportunity to be immunized against the dreaded flu bug. Employers may purchase coupons for those unable to attend on the clinic day. Your employees can then present their coupons at Foundation Care Pharmacy located at 4010 Wedgeway Court, Earth City, MO to receive their vaccination(s) against the flu virus.

Proper Education

The key to staying disease free is education! After being immunized, participants receive important materials that they may take home. We provide them with information on disease prevention methods, tips on how to stay healthy, and actions to improve their overall health maintenance during the flu season.

As you know, vaccinating your employees against the flu virus is **VERY** affordable when considering the potential thousands of dollars your company could lose due to missed days and lost productivity. For only **\$25.00*** per injection you can protect your employees from the flu this season.

Don't delay; flu vaccine supplies may be limited. Contact me at **314-291-1122** or e-mail me at **rebecca.hefele@foundcare.com** to set up a flu vaccination program for your company.

Sincerely,

Rebecca Hefele, RPh
